

Turn Web Form Leads Into Phone Calls with Form to Phone™

KEY BENEFITS

- Get them while they are hot. Prospects cool off fast.
- Close the gap from lead to “conversation”.
- Turn internet leads into phone calls. Your reps will thank you for it.
- You only pay for connected calls.
- Works seamlessly with Get Starts’ Lead Management System.

How it Works

- 1 We attach a small snippet of code to your web forms or lead management system that initiates the call.
- 2 When a prospect fills out an inquiry form and hits the Submit button, your phone rings immediately at the school or call center.
- 3 You are given the name of the person who filled out the form, their program of interest and then prompted to press 1 to be instantly connected by phone.
